

EMINENT

Early Market Introduction of New Energy Technologies in liaison with science and industry

Objectives

- ◆ Promotion and dissemination of results of technology research and demonstration projects in energy technologies relevant to different regions, both inside Europe and outside Europe by making use of the EMINENT assessment tool;
- ◆ Complement and strengthen dissemination activities carried out within individual FP5 and FP6 projects;
- ◆ To combine results from different projects and make (objective and unbiased) assessments of the technologies with the highest market potential as a basis for a thematic approach to promotion and dissemination;
- ◆ To cut lead time for enabling technologies, concepts and tooling by securing the right means and measures when needed;
- ◆ To bridge the gap between European R&D centres and the European energy technology industry;
- ◆ At policy level, to identify pertaining needs and requirements relating to research, knowledge and development, and to make appropriate strategic recommendations and key notes for policy documents.

Scope of the project

To strengthen the European industry and policy institutions by comprising and operating a network that comprises elevated expertise from science and technology research for the purpose of enhancing and accelerating the market introduction of energy-and-environmental technologies.

Project Title

Early Market Introduction of New Energy Technologies in liaison with science and industry (EMINENT)

Participants

- 1 Netherlands Organisation for Applied Scientific Research (The Netherlands)-
COORDINATOR
- 2 SINTEF Energiforskning AS (Norway)
- 3 The University of Manchester (United Kingdom)
- 4 Instituto Superior Técnico (Portugal)
- 5 European Biomass Industry Association (Belgium)
- 6 The European Association for the Promotion of Cogeneration (Belgium)
- 7 Fraunhofer Institute for Systems and Innovation Research (Germany)
- 8 Commissariat à l'Énergie Atomique - Laboratoire d'Intégration Systèmes (France)
- 9 EC Baltic Renewable Energy Centre (Poland)
- 10 University of Veszprem (Hungary)
- 11 ETA - Renewable Energies (Italy)
- 12 Eidgenössische Technische Hochschule Zürich (Switzerland)
- 13 The Centre for Research and Technology Hellas (Greece)
- 14 Joanneum Research (Austria)
- 15 Chalmers University of Technology (Sweden)

Supported by the European Commission
